

BioOne COMPLETE, the full-text database from BioOne, provides subscribed and open-access journals focused in the biological, ecological, and environmental sciences. A valuable resource for researchers, BioOne Complete provides new knowledge relating to a wide-array of today's most pressing concerns, including climate change, species and habitat conservation, ecosystem services, and biodiversity.

BioOne Complete Stats

- **207** journals from **157** publishers
- **29%** based outside the U.S.
- **81%** of the subscribed journals have an impact factor
- **46%** publish current content exclusively in BioOne Complete
- Over **1,400,000** pages, and growing daily

Tools & Features

The website offers a number of tools that enable discovery and help keep you up-to-date with the latest research including:

- Advanced search capabilities
- Alerts for saved searches and new content
- A mobile website for on-the-go access
- ORCID ID integration
- Download content to citation managers
- Favorite articles and journal tagging
- Journal- and Article-level metrics
- HTML, PDF, and mobile access

Core Subject Coverage

Agriculture & Agronomy
Biodiversity Conservation
Ecology
Entomology
Environmental Sciences
Evolutionary Biology
Geosciences
Integrative Biology
Marine & Freshwater Biology
Ornithology
Paleontology
Plant Sciences
Zoology
