UNIVERSITY

# ÇANKIRI KARATEKİN *University*

### **Dear Youth,**

Universities are not only a place where basic knowledge is acquired, but also educational centers where individuals realize themselves, develop their ability to criticize and become ready for life. The primary goal of the universities should be to prepare students fully equipped for life. Çankırı Karatekin University (CAKU) invites its students to the future by adopting ethical values as well as universal criteria in education and research. In addition to high-quality research, the dynamic education system is one of the main reasons why ÇAKÜ is one of the preferred universities in this region for undergraduate and graduate education. As the main focus of our university; you are the individuals who prioritize love and respect for each other, who are humble, who stick to their customs and traditions, who make the people building the future. We want you to work hard to become self-confident individuals who can reproduce virtues in your own identity throughout your university education and understand the realities of your environment and the world. While doing these, we should not forget the values of common mind, justice, fairness, discipline, work and virtue. Our university aims to educate individuals who read, produce, apply and disseminate new knowledge and increase the skills they have acquired, therefore, it offers its infrastructure equipped with the latest technology to the service of its students. In addition to having a comprehensive student service support and a decent and pleasant environment on campus, the proper and efficient execution of education and training activities are among the issues we attach importance and priority to. We will always be by your side to make you feel at home while you get your education at our university perfectly in order to absorb national and universal values.

## **UNIAR**

UNIAR (University Research Laboratory) conducts research on universities and higher education in Turkey. According to their report published in 2020, the State University Ranking of Çankırı Karatekin University is 55th. The ranking calculated in the light of the data obtained by calculating the academic incentive scores from nine types of activities such as project, research, publication, design, exhibition, patent, citation, notification and award. ÇAKÜ leaped forward 35 lines higher than last 3 years. According to quality experts, this refers to a "radical change".

**(UNIVERSITY RANKING BY  
ACADEMIC PERFORMANCE)**

## **URAP**

Located in METU Informatics Institute within the University Ranking by Academic Performance (URAP) Research Laboratory from 2009 until now, the universities in Turkey are listed according to their academic performance. In the ranking of Turkey, Web of Science/InCites data published by the Higher Education Council and international resources are used. We hope that this ranking system developed by URAP for our universities will help each university to learn about its own placement.. We believe that our universities will increase their ranking in the world rankings within a certain period of time by seeing their shortcomings and improving themselves. Currently, our universities have a better place in the world than many European universities. Despite all the financial difficulties and staff problems, our universities are among the best universities in the world in international rankings. Çankırı Karatekin University, ÇAKÜ has ranked as the 19th among the state universities in Turkey.

## SUCCESSFUL RANKING IN TUBITAK THE SCIENTIFIC AND TECHNOLOGICAL RESEARCH COUNCIL OF TURKEY

## R&D

### RESEARCH AND DEVELOPMENT AND DESIGN CENTER – ÇAKÜ

The importance of university and industry collaboration is increasing day by day. In the next period, it focuses on how the university and industry will act in science, technology and R&D studies. Our time is research, development and innovation time. It is time for science to be transferred to technology.

ÇAKÜ academic staff in Turkey competed in organizations of R&D projects; they received 6 first rankings, 3 second rankings and 3 patents from the Turkish Patent and Trademark Institution.

# ÇANKIRI TECHNOPOLIS

Çankırı Karatekin University Teknokent Manager and ÇAKÜ Teknokent business names were registered with Çankırı Teknokent, which was implemented with the participation and support of Çankırı Governorate, Yakınkent Organization Industrial Zone, Çankırı Chamber of Commerce and Industry, under the leadership of Çankırı Karatekin University.

Universities have been established to produce science in order to bring the industry of the country to an internationally competitive and export-oriented structure by collaborating with research institutions and organizations and production sectors.

# ÇANKIRI TECHNOPOLIS

In this context;

With generating technological knowledge, developing innovations in products and production methods, product quality and standards will be improved to increase productivity. This will serve to a variety of purposes such as the reduction in the production costs. Technopolis is going to provide a great contribution by providing employment opportunities to Çankırı and Turkey's economy.

ÇAKÜ Technopolis, which has been followed for a long time by the entrepreneurs and R&D companies in our region, will also enable scientific research and innovation studies for academicians and students of our university.
